## **The Workshop**

Department of Biotechnology, RKDF University cordially welcome you to the science academies one week lecture workshop. This is intended to bring forth most up-to-date developments in Haemoglobinopathies. Participants will benefit greatly from attending this workshop, because participants will be able to interact closely with experts in the field of Molecular, Medical Biotechnology; discuss relevant literature in Molecular, Medical Biotechnology; especially those incorporating cutting-edge technology; communicate more effectively with their basic science colleagues; and apply the advances of Molecular, Medical Biotechnology to the problems. The Lecture Workshop is generously sponsored and supported by the **M.P.Council of science & Technology**.

**Department of Biotechnology, RKDF University:** University has teamed up with reputed national and international scientific advisor for the molecular biotechnology study and research to impart training in medicinal Biotechnology /Genetics. Several special UG ,PG & Ph.D. programs are already is going in the department. Department is going to launch several diploma certificate courses in medical biotechnology/Genetics customize for doctors researchers and laboratory personal keys on pursuing a career in related field. Six months certificates course medical Biotechnology /Genetics three months corresponding course on medical biotechnology/Genetics awareness. One weak work shop in molecular biotechnology, Cytogenetics, PCR, Metabolic genetics, Genetic Counseling. Department is having national & international publication with impact factor of 12.

**M.P.Council of Science & Technology:** M.P. Council of Science & Technology was established under MP Society Registration Act, 1973 in October, 1981.
